It is a charity activity to raise awareness of Men's health including prostate cancer and mental health.

Men who decide to take part don't shave their moustache for one month and became Mo-bros.

The reason that he grew his moustache was

because of Movember which is a word

combination of moustache and November.

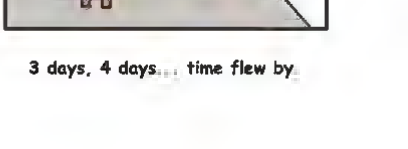
MOVEMBER

Movember started in Australia in 2003.

November Moustoche

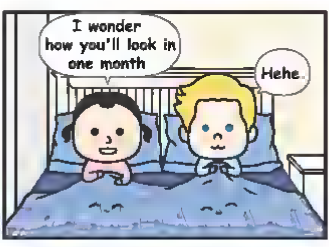
Mev had a moustache
during the month of November.

3 days, 4 days... time flew by



While his moustache was getting thicker...

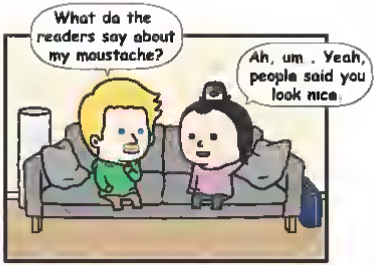
And they collect money from people and then donate it.



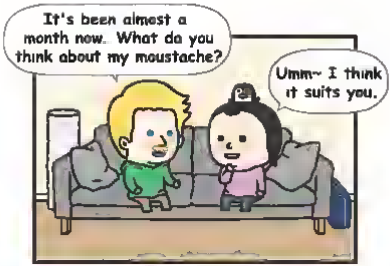
It was the first time that he tried to grow a moustache so I was very curious about how he would look.

Mev was also growing
a moustache in the cartoon.

There were a few people who
noticed that Mev was doing Movember
but it seemed that many people preferred
Mev without the moustache

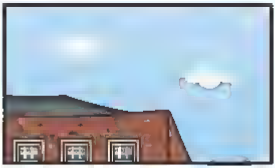


So I told Mev a white lie as well.



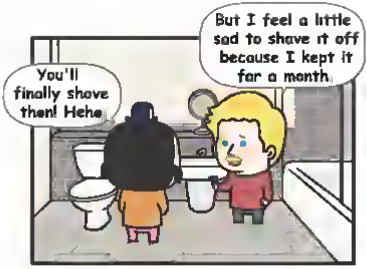
In real life, Mev looked quite nice with a moustache...

... except that he looked very old

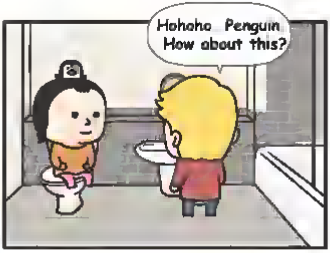


Anyway November passed by
with Mev's moustache.
It was soon Sunday 1st December.

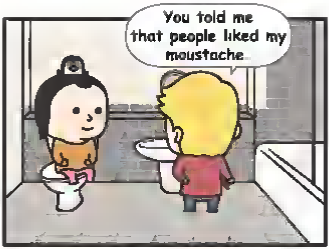
Mev collected about 60 pounds to donate
and his Movember had finished.



But I feel a little sad to shave it off because I kept it for a month.
You'll finally shave then! Heha

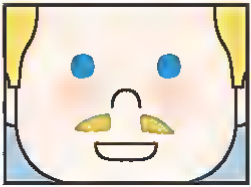


Hohoho Penguin. How about this?



You told me that people liked my moustache

(Inside Penguin's mind)
PEOPLE DIDN'T LIKE IT AT ALL~~



Of course,
his ending wasn't ordinary.
